EXPERIENCE

FieldFLEX Inc

Jun. 2023 – Mar. 2026

Frontend Developer

Ottawa, ON

- Developed and maintained an enterprise-level personnel management mobile application, focusing on scalability, performance, and user experience for B2B operations.
- Implemented and debugged complex distributed state management, improving application reliability and reducing state-related issues.
- Worked with IBM TRIRIGA and IBM Maximo for enterprise asset and facilities management solutions, supporting system configuration and troubleshooting.

Simform Solutions

Dec. 2021 – Apr. 2023

Software Engineer - Full Stack JavaScript Developer

Ahmedabad, Gujarat

- Performed comprehensive testing and debugging to ensure high software quality, reliability, and application stability.
- Participated in code reviews, contributing to improved code quality and continuous enhancement of development processes.
- Took ownership of assigned tasks, delivering high-quality features within defined timelines.
- Continuously enhanced technical skills and domain knowledge through training, self-learning, and professional development.

Green-Apex Technolabs

Dec. 2018 – Oct. 2021

Full Stack JavaScript Developer

Ahmedabad, Gujarat

- Collaborated with cross-functional teams to design, develop, and deploy full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Wrote clean, maintainable, and well-documented JavaScript code, following best practices and modern development standards.
- Designed and implemented scalable RESTful APIs to support client-side applications and ensure efficient data communication.
- Stayed current with modern web development trends and MERN ecosystem technologies, continuously improving development practices and technical expertise.

PROJECTS

Virtual Exhibition - Xpro.ai

- Built an interactive virtual exhibition platform with avatar-based navigation
- Integrated real-time chat, audio, and video communication using Socket.io
- Collaborated with Unity team for immersive 3D experience and stall interactions
- Enabled multi-stall exploration and virtual networking for users
- Implemented push notifications and real-time updates for user engagement

Tech: ReactJS, NodeJS, Unity, MongoDB, Socket.io, Firebase

Link: <https://www.xpro.ai/>

Marigold Health

- Built a platform to support drug abuse recovery and mental health tracking
- Enabled real-time communication between patients and admins/peers
- Implemented progress tracking and monitoring features for recovery journeys
- Integrated analytics tools (Mixpanel) to track user behavior and engagement

- Used PubNub for reliable real-time messaging and notifications
- Wrote unit and integration tests to improve application reliability and reduce regressions

Tech: ReactJS, NodeJS, React Native, PostgreSQL, PubNub, Mixpanel, Firebase

Link: <https://www.marigoldhealth.com/>

Tiffin Mom (Food Delivery Platform)

- Developed backend APIs for meal subscription and order management
- Integrated PayPal for secure online payments
- Improved frontend UI components for better user onboarding experience
- Collaborated on both frontend and backend to enhance overall performance

Tech: ReactJS, NodeJS, MySQL, PayPal

Link: <https://tiffinmom.com/>

Hardcover (Book Tracking Platform)

- Built reusable UI components for book discovery and tracking features
- Improved user experience for managing personal reading lists
- Enhanced frontend performance and responsiveness
- Contributed to interactive features for browsing and tracking books

Tech: ReactJS

Link: <https://hardcover.app/>

MokoBoko (Fitness Studio Website)

- Developed full-stack features for a fitness class booking platform
- Implemented pixel-perfect UI based on design specifications
- Integrated Stripe for secure payment processing
- Ensured responsive design and optimized performance across devices
- Built backend services for class scheduling and user management

Tech: ReactJS, NodeJS, Stripe, Supabase

Link: <https://mokoboko.com/>

FieldFLEX Mobile

- Developed and maintained features for a workforce management platform
- Improved frontend usability and performance for enterprise users
- Optimized system workflows for better efficiency and reliability
- Collaborated with distributed teams across time zones in a remote-first environment

Tech: JavaScript, VueJS, NodeJS, PostgreSQL

Link: <https://fieldflex.com/>

EDUCATION

Global Institute of Technology

Bachelor of Technology in Electronics & Communication Engineering

Aug. 2013 – May 2017

Jaipur, Rajasthan

SKILLS

Languages : JavaScript (ES6+), TypeScript, SQL

Frontend : React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux, MobX

Backend : Node.js, Express.js, REST APIs, GraphQL

Databases : MongoDB, PostgreSQL, MySQL, Vector DB (pgvector)

Build Tools : Webpack, Vite

Testing : Jest, React Testing Library (Basic), API Testing (Postman)

Tools & Platforms : Git, GitHub, Postman, Jira, Figma

Concepts : System Design, RESTful Architecture, Authentication (JWT, OAuth)

AI/ML (Learning) : OpenAI APIs
